Thetabiz™ Prepaid Card Programs allow member based companies to issue their own prepaid debit cards to new customer segments which did not previously qualify for traditional debit or credit card. For example such programs can include teens, gift cards, payroll cards, promotional cards, expense management cards, commission payout cards, reward cards, money transfer cards, Multi Level Marketing member cards and others. To help such companies with intentions to implement debit card programs, Thetabiz™ Group has partnered with banks and financial institutions to offer competitively priced prepaid debit card solutions, implementation and management of such programs. Companies will be able to issue prepaid debit cards without requiring the card holder to open a bank account and hence avoid unnecessary additional cost of account maintenance while making substantial residual commission income.
